## **Team Participation and Payment Policy Waiver v5.0** ***Tournaments, Training or other Team Related Activities***

The Team Participation and Payment Policy Waiver for the YMCA outlines clear guidelines for players and families regarding tournaments, training or other team related activities and financial obligations.

### Player Obligations

- Players must use TeamSnap for communicating tournament, training and other team activity participation.
- Under the availability tab in TeamSnap players must indicate (yes or no) for specific tournament, training or other team activity participation at least one week prior to the date of the tournament, training or activity.
- Once a player is confirmed as a tournament, training or team activity participant, that player assumes all financial responsibility for event related fees.

### Payment Requirements

- YMCA will charge player accounts within 3 business days of a registered tournament.
- YMCA will charge player accounts at the point of registration for leagues, indoor training, or other team activities.
- All tournament, training, or team activity related fees will be charged to the default payment method on file with the YMCA player account.  
*\*Should a default payment method not be designated, the system will utilize the accounts payment method associated with the most recent successful transaction*
- Outstanding balances must be resolved to avoid exclusion from future YMCA activities and programs.

### Cancellations and Refunds

- If the YMCA or tournament host cancels an event, all payments including deposits will be refunded.
- Other refund circumstances will follow the YMCA's standard program refund and cancellation policy.

### Participation Expectations

By agreeing to participate, players and families acknowledge:

- Full payment is required regardless of attendance unless cancellation occurs before the one-week deadline.
- Non-compliance with payment and documentation policies will result in exclusion from future YMCA events.

This policy ensures clear communication of financial responsibilities and participation expectations for YMCA tournaments, training or other team activities, promoting fairness and accountability among participants.
